

## INFORMATION SECURITY MANAGEMENT SYSTEM POLICY

Vasco Electronics S.A. is committed to maintaining and continuously improving an effective Information Security Management System (ISMS) in accordance with ISO/IEC 27001 standard to ensure the protection of information and data belonging to the company, its customers, and business partners.

This policy covers all departments of Vasco Electronics S.A. and all resources, processes, and systems related to the processing, storage, and transmission of information.

The company's management is committed to:

- providing the necessary resources for the effective implementation and maintenance of the ISMS,
- complying with all information security obligations specified within ISO/IEC 27001.
- taking necessary measures to continuously improve the ISMS and enhance information security.

The main objectives of the ISMS at Vasco Electronics S.A. include:

- protecting the confidentiality, integrity, and availability of information,
- minimizing information security risks,
- ensuring compliance with ISO/IEC 27001 requirements and other applicable regulations.

Regular ISMS reviews and internal audits will help identify areas for improvement. Vasco Electronics S.A. is committed to continuously improving its ISMS based on the results of these reviews.

Vasco Electronics S.A. will take appropriate measures to ensure that employees are aware of the ISMS policy, security procedures, and their responsibilities related to information protection.
